

QUALITY POLICY rev.02

In line with the Standard ISO 9001:2015, ISO 13485:2016 and ISO 27001:2022 Quality Management System, the Board of Directors of Advice Pharma declares this Quality Policy as an essential document describing the expected attitude and behavior of all staff members.

Advice Pharma quality policy is dedicated to end-users of its products: Advice Pharma designs and develops IT solutions to support Pharmaceutical, Biopharma and Medtech Companies with a particular focus on then clinical trials and more, in general, clinical applications.

This document is dedicated to customers who are potentially interested in Advice Pharma's services and activities, and also to the other stakeholders, inclusive of Advice Pharma's internal staff, research institutions, health institutions and Competent Authorities.

Advice Pharma quality policy is a declaration of intent concerning all aspects of company life with additional emphasis on focus on safety of patients, as end users of solutions, at different steps of their involvement in the clinical trial.

Advice Pharma recognizes the critical importance of quality across the highly regulated clinical research and software as a medical devices activities service means of:

- Dedication to customer satisfaction since the first steps of our design activities.
- By means of continuous research to facilitate customer and clinicians in their work always in compliance with the regulatory requirements.
- Dedication to maintain the company system efficacy with the aim to consolidate the patient safety by means of technological innovation techniques.
- Commitment to pursuing compliance with applicable MDR regulatory requirements and to developing MDR-compliant devices as a manufacturer.

Advice Pharma is therefore committed to provide its customers with a service in accordance with a predefined scope of tasks, agreed costing structure and proposed timeline.

Advice Pharma delivers high quality, competitive, clinical research and software as a medical device activity services.

Advice Pharma helps customers meet regulatory requirements and exceed their expectations, while continuously improving.

To achieve this Advice Pharma has implemented a Quality Management System designed to meet the requirements of the Standard ISO 9001, ISO 13485 and ISO 27001 considering the context and the legal requirements of clinical research.

The Board of Directors commits adequate resources to support Quality Management System and create an environment supporting fulfillment of this Quality Policy.
